

ETILENO XXI PROJECT NANCHITAL | MEXICO

**WORLD LOGISTICS
SERVICES CORPORATION**
www.wlscorporation.com

SCOPE OF WORK

- Rental of land from API Nanchital for the construction & operation of roll-off jetty
- Rental of land from API Nanchital for storage location & offices
- Preparing the land for use
- Construction of security perimeter fencing and lighting.
- Construction of jetty to receive abnormal cargoes, and barges with general cargoes.
- Mobilization/demobilization of equipment & personnel for warehousing operation in Nanchital

PORT OF NANCHITAL

Ro/Ro Ramp:

- Due to the curves in the road when exiting from the existing concrete pier, WLSC will construct a new ro/ro jetty at the end of the main exit road from the port.
- The new ro/ro jetty will allow for a straight movement from the pier to the main road.
- The area immediately adjacent to the ro/ro jetty will be developed for storage of cargo, and assembly of transport equipment.

STORAGE LOCATION

- Intermediate Storage area at Nanchital:
Area: 26.5 hectares (265,000 SqM) approximately
- Access by road and by water.
(7.8 kilometers from the site)
- Handling an average of 7,000 revenue tons per month
